The Blend

Porcelain Stoneware Â· Floor and Wall

OVERVIEW

THE BLEND collection explores the dialogue between raw materiality and refined architectural expression. Contemporary concrete surfaces are presented in five warm, understated tones, complemented by three stone-effect finishes inspired by the distinctive character of Brazilian quartzite. A carefully considered colour palette creates visual continuity across the Concrete and Stone series, while pronounced mineral aggregates and subtle tonal movement lend depth, scale, and authenticity to each surface. The collection is further enriched by Glass Concrete, where irregular square glass inserts are embedded within the concrete aesthetic to introduce texture, reflectivity, and architectural rhythm. Designed to create cohesive interior environments, THE BLEND collection combines complementary materials and finishes to deliver a versatile ceramic surface solution that balances natural character with contemporary design precision.

PRODUCT SPECIFICATIONS

Product Type	Porcelain Stoneware
Usage	Floor and Wall
Sizes	Concrete: 1200x1200, 900x900, 600x1200, 600x600 - 900x900x20mm Stone: 900x900, 75x1490, 600x1200
Finishes	Natural: R9 Natural Outdoor: R10 Grip 20 mm: R11
Tech Data	R9 R10 R11
Origin	ITALY
